

**DEPARTMENT OF AGRICULTURE**  
**Pesticide Applicator Certification**

Environmental concerns are given a high priority in today's world. Having a workable tool to insure that those who apply pesticides are knowledgeable and have the expertise to avoid mishaps is important. The most current Applicator Certification information and messaging is available 24 hour a day, 7 days a week using any touch-tone phone. Callers have access to the following functions:

- Obtain certification exam results by exam number, or by certification number.
- Obtain certification listing of specific Applicator license, or all certification categories listed for a specific license.
- Scheduling of applicator testing via an auto-dial to a Test Center.
- Placing an order of training materials via an auto-dial to an Order Center Voice Mail.
- Transfer to a representative during business hours, or Voice Mail if after hours.

All information is accessed utilizing the caller's Exam Number and/or Certification Number, and are validated upon entry. Certification detail is given using pre-recorded messages with variable data inserted for caller specific detail.
